Sweden

Magnus Apelqvist – Biosphere Academy, Östra Vätterbrantarna BR (from Tuesday noon)

Mattias Holmquist- Blekinge Archipelago BR, coordinator (only Monday)

Heleen Podsedkowska-Litorina Folk High School

Marjo Portin-Litorina Folk High School

Aim for meeting

- Learning about Litorinas different adult education possibilities and learning methods
- Experiencing Litorinas learning environment
- Learning about our students when doing the practical work
- Possibly visiting some companies who provide possibilities for students to do the practical work.

To keep in mind also: agreements from last meeting in July (PM September 13):

- Each partner will prepare for the next meeting (Sweden) three priority topics, that could be used in the final conference (March 2019). We have to find (agree up on) the common theme during next meeting in Sweden. NB! Check the picture of first ideas below.
- For sharing project documents and other materials (pictures etc) we use Google Drive. Shared folder Nordplus 2018 work folder for partners is created.
- Each partner will start mapping out regional educational institutions, learning opportunities and experiences of intermediation of science to local communities with their own methods. HVS will create the final summary and project document.
- After the Estonian meeting all partners cover their own accomodation an food expences. The final conference expenses will be discussed more detailed in 2019.

Aim/functions BRs

- Contributing to preserving landscapes, ecosystems, biodiversity and cultural values

- Supporting people living and working in the area through economic and social development in a sustainable way (companies, networks and innovations)
- Supporting research, projects, education and initiatives that support the area and strive for sustainable development (from older to young people both visitors and residents)

... in order to serve as a model area (site of excellence) for sustainable development

DRAFT
